AKC Registration and Breeding Rights

All Silver Star Labs puppies are sold with AKC Limited Registration and are intended as companion animals. Breeding rights are not included with the purchase of the dog.

The Buyer agrees that the dog will not be used for breeding purposes. Any AKC registration papers, pedigree information, or genetic and health testing documentation provided with the dog does not grant or imply breeding rights.

Buyer's Responsibilities

The Buyer agrees to:

- Provide the puppy with appropriate food, fresh water, shelter, exercise, socialization, and routine veterinary care.
 - Maintain age-appropriate vaccinations, deworming, and parasite prevention as recommended by a licensed veterinarian.
 - Take reasonable precautions to limit the puppy's exposure to public areas and unfamiliar animals until the puppy has completed the veterinarian-recommended vaccination schedule.
 - Comply with all applicable local licensing, vaccination, and leash requirements.
 - Have the dog spayed or neutered by twelve (12) months of age, unless otherwise agreed to in writing by Silver Star Labs, and ensure the dog is not bred prior to being spayed or neutered.
 - **Notify Silver Star Labs if the Buyer is no longer able or willing to care for the dog or intends to transfer ownership to another person.**
-

Silver Star Labs Health Assurances

1. At the time of sale, the puppy is believed to be in good health.
2. The puppy has received all age-appropriate vaccinations and deworming treatments administered prior to the date of transfer.
3. The Buyer will receive all available vaccination, deworming, and veterinary health records for the puppy at the time of transfer.
4. To the best of Silver Star Labs' knowledge, the puppy is free from known life-threatening congenital or hereditary conditions at the time of sale. AKC pedigree information and available health and genetic testing results for both parents are available for review.

Illness Guarantee

If a licensed veterinarian determines that the puppy has a serious illness that existed prior to the sale, the Buyer must promptly provide Silver Star Labs with written documentation of the diagnosis from the veterinarian.

Silver Star Labs will offer, at their discretion:

- Exchange the puppy for another puppy, if one is available; or
- Provide a full refund upon the return of the puppy to Silver Star Labs.

To maintain the validity of this Illness Guarantee, the Buyer must have the puppy examined by a licensed veterinarian within three (3) business days of taking possession. Failure to have the puppy examined within this timeframe will void the Illness Guarantee.

Genetic Health Guarantee

Silver Star Labs provides a **12-month Genetic Health Guarantee** against life-threatening hereditary conditions.

If the puppy is diagnosed by a licensed veterinarian with a life-threatening hereditary condition within twelve (12) months of the date of purchase, the Buyer must promptly provide Silver Star Labs with:

- Complete veterinary records related to the condition;
- Copies of all relevant diagnostic test results; and
- Written confirmation from the veterinarian identifying the diagnosis and confirming that the condition is hereditary.

Upon receipt and review of the required documentation, Silver Star Labs will offer, at their discretion:

- Exchange the puppy for another puppy, if one is available; or
- Provide a full refund upon the return of the puppy to Silver Star Labs.

Silver Star Labs reserves the right to have the diagnosis and supporting medical records reviewed by a licensed veterinarian of its choosing before honoring a claim under this guarantee.

Change of Ownership After Purchase

If at any time the Buyer is no longer able or willing to keep the dog, the Buyer agrees to contact Silver Star Labs before selling, surrendering, rehoming, or otherwise transferring ownership of the dog.

Silver Star Labs shall be given the opportunity to accept the return of the dog or assist the Buyer in finding an appropriate new home. The Buyer agrees not to surrender the dog to an animal shelter or rescue organization without first contacting Silver Star Labs.

Unless otherwise agreed to in writing, the Buyer will not be entitled to a refund of the original purchase price if the dog is returned to Silver Star Labs.

Items Not Guaranteed

Silver Star Labs does not guarantee:

- The dog's adult size, weight, coat color, shade, or other physical characteristics that may naturally change as the dog matures.
- The dog's temperament, personality, or behavior after transfer, as these may be influenced by training, socialization, environment, handling, and other factors outside the control of Silver Star Labs.
- The dog's suitability for a particular purpose, including breeding, showing, hunting, competition, or service work, unless specifically agreed to in writing.

Agreement Exceptions

Any exceptions to this agreement must be made in writing and signed by both parties.
